

ALICE-01

Autonomous Adaptive Android System

Experience the pinnacle of android engineering with ALICE-01—a revolutionary fusion of quantum neural processing, biomimetic design, and limitless customization. From executive boardrooms to security details, from research laboratories to luxury events, ALICE-01 adapts to become exactly what you need.

METROFORM.

Revolutionary Technology

Where cutting-edge hardware meets
adaptive intelligence

Quantum Neural Core

128-qubit quantum processor delivering unprecedented cognitive capabilities. Process millions of decisions per second with human-like intuition and machine precision. **10x faster reaction time** than human average.

Biomechanical Excellence

NeoCarbon-Titanium alloy endoskeleton with advanced electric actuation. Featuring 30 ElastiPolymer artificial muscles for fluid, natural movement. **Lift up to 120kg** in peak performance configurations.

Superhuman Perception

100-megapixel optical systems with integrated LIDAR and extended spectrum vision. Track up to 24 conversations simultaneously. **See in near-darkness** and detect chemical signatures at parts-per-trillion sensitivity.

Quantum Flow Power

Revolutionary energy system providing **72 hours continuous operation**. Recharge in just 30 minutes. Self-regulating power distribution adapts to task demands, with 10,000+ cycle lifespan.

Adaptive Thermal Control

Advanced heat conduction network maintains optimal performance from **-40°C to 50°C**. Whisper-quiet operation at less than 10dB. Intelligent cooling prioritizes critical systems.

Natural Communication

Fluent in **128 languages** with emotional intelligence processing. Artificial vocal cords generate infinitely customizable voice patterns. 50 facial micro-actuators create genuine expressions.

NOTE: the numbers above are meant to give an overall idea about Alice's-01 capabilities and are typical for the standard frame. Depending on the customization and frame configuration, her specs can be higher. See below for more details..

For the complete technical specifications of the standard frame, please refer to the full Alice-01 manual.
If you would like to review it before purchase, please contact us using the contact form.

METROFORM 

Battle Mode Enhancement

Ultimate protection when you need it most

Unlock ALICE-01's full defensive potential with our proprietary Battle Mode upgrade. This comprehensive combat package includes over 500 hand-to-hand combat techniques, predictive threat analysis, and lightning-fast defensive reflexes.

Enhanced Hardware

- Reinforced joint assemblies
- Military-grade actuators
- Shock-resistant frame upgrade
- Ballistic dermal layer option

Combat Capabilities

- 0.003 second threat response
- Multi-opponent tracking
- Adaptive combat strategies
- Non-lethal neutralization focus

⚠ Important Notice: Battle Mode requires reinforced components and frame modifications. Standard frames may experience actuator damage or tissue tearing under combat stress. Activation requires special authorization, particularly in public spaces. For concealed weapons and leathal conuntermeasures additional fees and legal compliance documentation required. Unauthorized modification or use is strictly prohibited and will void all warranties and support.

NOTE: installing Battle Mode obliges the buyer to provide all the legal documents and permissions that are required in his country of residence. Specific permissions regarding carrying concealed weapons in public may be required (please check with your local laws before ordering Battle Mode to be installed. MetroForm does not provide legal advice.

Infinite Customization

Your vision, perfectly realized

APPEARANCE OPTIONS

- ▶ Partially customizable facial features
- ▶ Refined athletic silhouette
- ▶ Premium wigs or implanted hair
- ▶ Dermal accents & luminance options
- ▶ Choose from 50+ eye color options

FRAME CONFIGURATIONS

- ▶ Standard: Balanced performance
- ▶ Security: Reinforced protection
- ▶ Performance: Enhanced agility
- ▶ Medical: Specialized sensors
- ▶ Executive: Premium materials

AI PERSONALITY MODULES

- ▶ Professional Assistant
- ▶ Security Specialist
- ▶ Medical Expert
- ▶ Corporative Representative
- ▶ Custom Personality Programming

Intimate Customization

Genital components available upon request. Please note: these modifications require structural alterations to the pelvis that may limit or fully disable certain high-performance capabilities. For clients prioritizing intimate companionship, we recommend our specialized Mika-X model, engineered specifically for personal relationships.

For the complete list of possible modifications and frame configurations, please refer to the full Alice-01 manual. Please note that some options require extra 2-4 weeks of waiting time.

Test Drive Program

Experience ALICE-01 in your environment

30-Day Trial Period

Not sure if ALICE-01 is right for your needs? Take advantage of our exclusive rental program. Test her capabilities in your actual working environment for up to **30 days**.

✓ Full Functionality

Access all standard features

✓ Custom Configuration

Test your specific use case

✓ Expert Support

24/7 technical assistance

✓ Purchase Credit

50% rental fee toward purchase

Complete Support Package

We're with you every step of the way

MetroForm's expert team provides comprehensive assistance in programming ALICE-01's databases and AI training. We ensure she's perfectly calibrated for your specific requirements, from behavioral patterns to specialized knowledge bases.

AI Customization

- ▶ Personality calibration
- ▶ Specialized skill training
- ▶ Industry-specific knowledge
- ▶ Behavioral optimization

Ongoing Support

- ▶ Regular firmware updates
- ▶ Performance monitoring
- ▶ Remote diagnostics
- ▶ On-site maintenance
